World Values Day 2022: how did we do?

- ❑ In terms of the quality of interactions and engagement it was another excellent year with many new events and activities, and much energetic sharing of values
- ❑ On social media we did well except for Twitter where our reach was weaker than previous years. Nevertheless, over the last 7 years on Twitter alone we have reached 259 million people in over 100 countries
- ❑ Our engagement rates on Twitter and across all our other social media channels this year were sharply better at 5.3% - far higher than ever before
- ❑ World Values Day kicked off again with a local community breakfast event in Tauranga, New Zealand with local Rotary, community groups and city leaders
- ❑ The **Values Challenge** is now in its sixth year – another 69 schools, organisations and community groups signed up for the Challenge from 21 countries around the world
- ❑ The **Valuesthon** programme of all-day online events was bigger than ever with 47 events compared to 40 in 2021 and 32 in 2020

❑ ValuesJam

In the run up to World Values Day, ValuesJam invited people to complete a survey identifying the top values needed for a flourishing community.

A study of the Wordcloud (and taking into account typos! 😊) identified an A list and a B list of values that people have identified as follows:

A – Collaboration, Responsibility, Compassion, Inclusion, Respect, Belonging

B – Leadership, Relationships, Sustainability, Commitment

What do you feel are the three top values needed for a flourishing community from the <https://values-jam.com/> card list of ten below?

Friends Forever!

*As we run and dash through life,
We stumble upon some people.
Most met by chance.
But some perhaps are sent our way.*

*Some become close friends
Whose bond we can't explain;
The ones who somehow get us
And share our joy and pain.*

*The bond contains no boundaries.
So, even when apart.
Their presence enhances us
With a warmth felt in the heart.*

*This bond becomes a passageway,
When even the miles disappear.
These friends sent our way, somehow remain near.*

Poet “KU Team, India” This poem is an ode to the Kindness movement and the great work being done by Kindness Unlimited, an NGO headed by Nirmala Peters-Mehendale. Kindness Unlimited’s journey and work inspired this poem. The poem was created by a group of friends who came together via Kindness Unlimited and is dedicated to Kindness.

World Values 2022: Social Engagement Rate

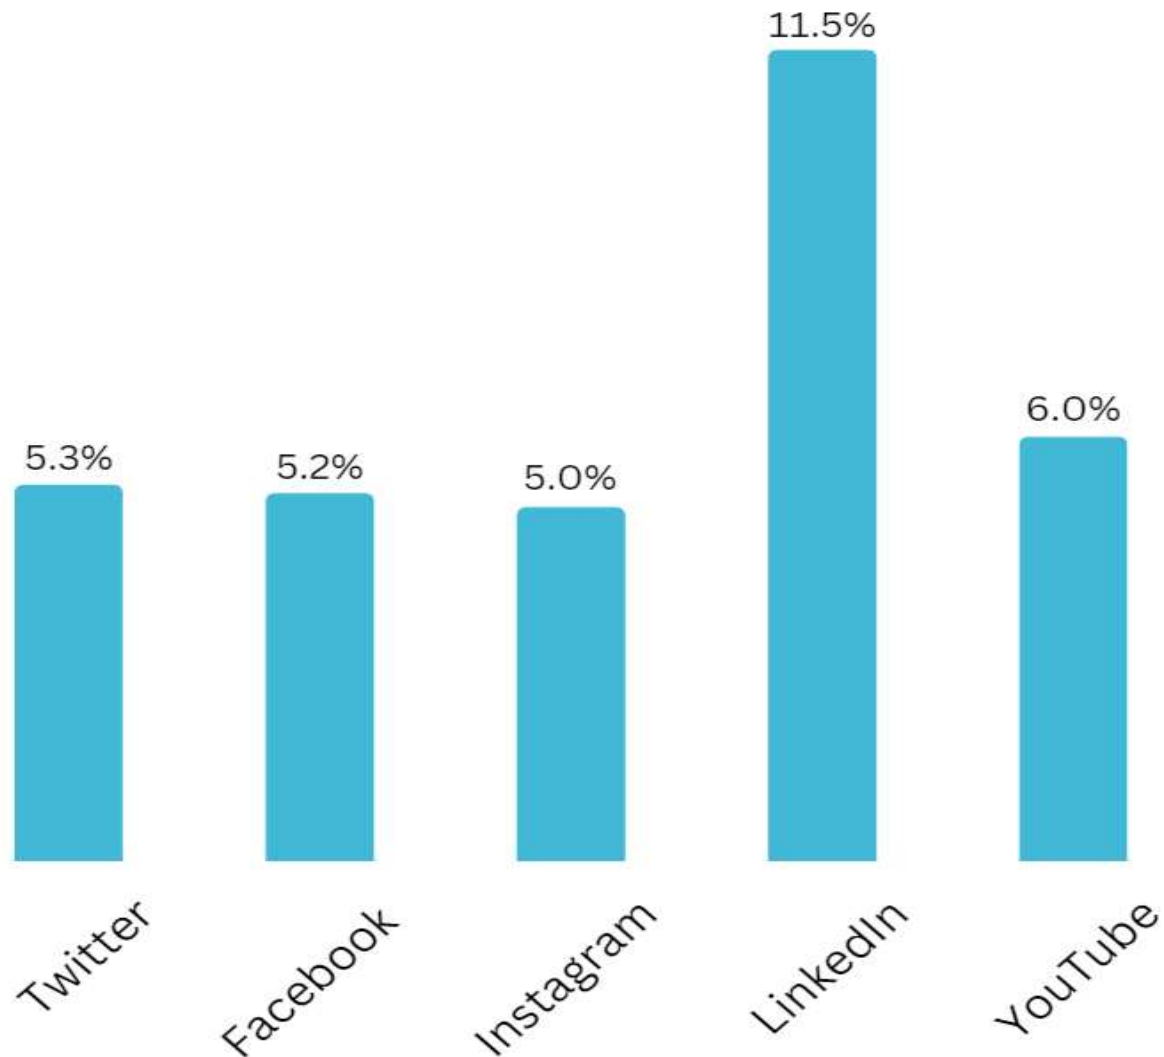

Impressions fell across all social media channels, mostly driven by the disappointing performance on Twitter. At the same time however, engagement rates rose strongly across all channels, including Twitter. Here are the overall engagement rates for all channels over the last 7 years:

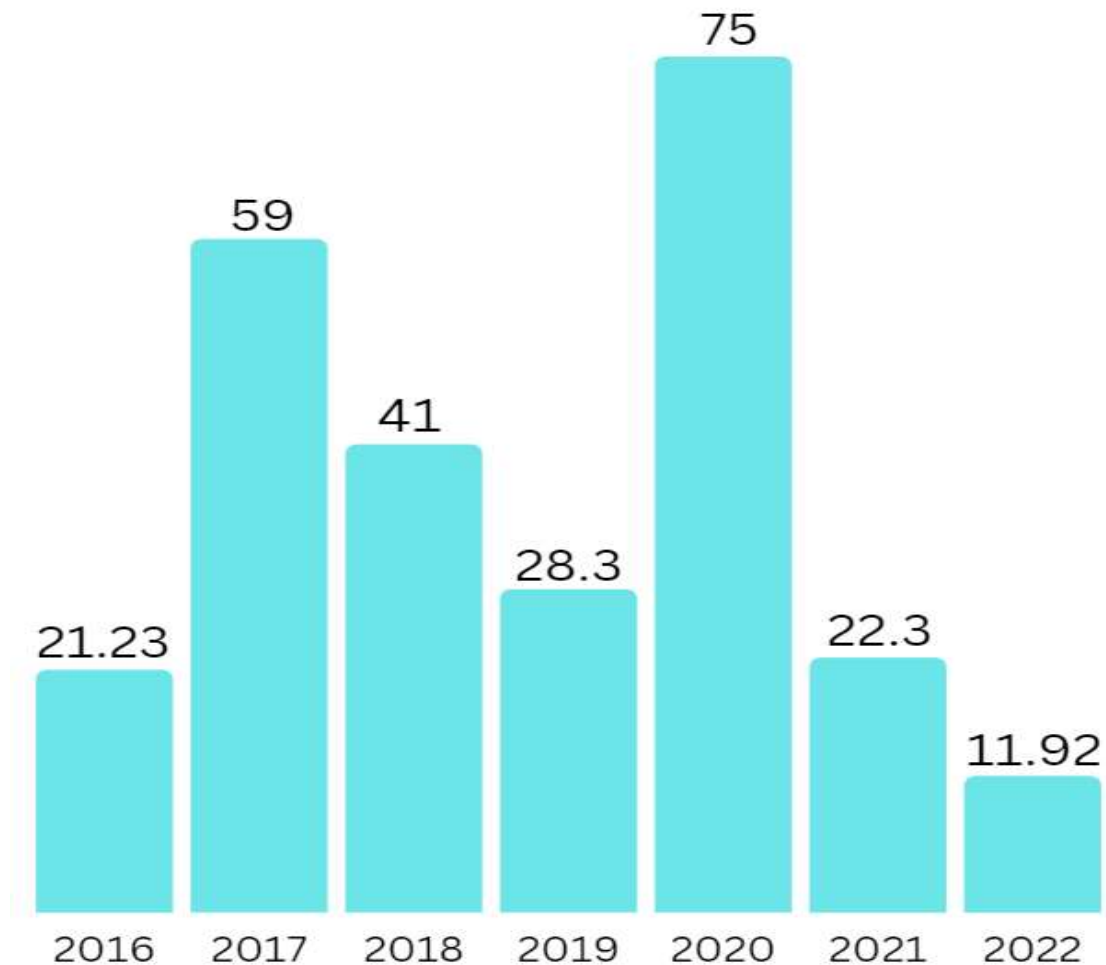

World Values 2022: Social Engagement Rate

Here are the engagement rates for the various channels this year – with the exception of Instagram they all rose strongly. LinkedIn rose from 9.2% in 2021 to 11.5% in 2022. These are very strong figures.

WVD hashtag potential reach on Twitter 2016-2022 now totals 259 million

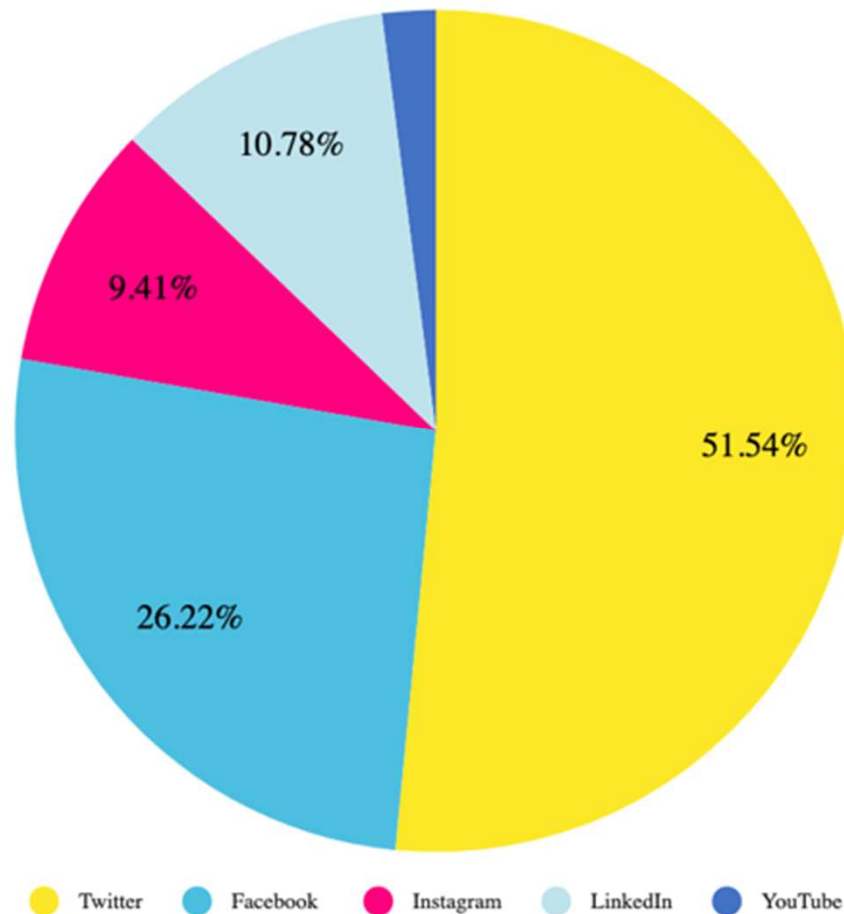

World Values Day 2022: Channel Balance

This year the split between channels was similar to last year in terms of followers. We aim to build up our presence in LinkedIn, Instagram, Facebook and YouTube in 2023.
